

William D. Granger	<p style="text-align: center;">How to Care for the Insane By William D. Granger</p> <p>"The writer believes that all attendants should be regularly instructed in their duties, and the highest standard of care can be reached only when this is done. He also believes that every person who is allowed to care for the insane will be greatly benefited by such instruction, and will be able to learn everything taught, if the teacher uses simple methods and is patient to instruct."</p> <p>As this manual was originally written in 1886, the basic medical instruction IS out-of-date and should not be used to diagnose any medical problem, nor should be used in the case of an emergency. It has been recorded for entertainment purposes only! (Summary from the Introduction and by Ann Boulais)</p> <p>Total running time: 03:01:27; read by Ann Boulais. Dedicated Proof-Listener: Betty M.
